West College Scotland

Schools Vocational Programmes

Welcome to West College Scotland's Senior Phase Programme; we are delighted that you are considering coming to study at our College.

If you are unsure what you want to do when you leave school then read on...

The courses we offer are ideal if you want to explore subjects and possible career choices which you may not have had the opportunity to study at school. Our courses are designed to give you a whole new learning experience which is different from your school learning.

COVID 19 - Due to the ongoing pandemic, the delivery of courses may be subject to change. Delivery of all courses are in line with government guidance.

We aim to help you develop new skills relevant to future employment in the wider world and give you the opportunity to progress to further or higher education, so that you achieve your ambitions.

We look forward to welcoming you to West College Scotland.

West College Scotland

Foundation Apprenticeships

Learn the skills you need for the future, while you're still at school

What is a Foundation Apprenticeship?

A Foundation Apprenticeship is an SCQF Level 6 qualification. You can sit a Foundation Apprenticeship over two years, starting in 5th year or a shorter duration course starting in 5th or 6th year alongside your Highers and National 5s.

The difference is, you spend time away from school, at college and with an employer. So you get real, practical work experience.

- Get a qualification that employers recognise and the skills you need to start a career in that industry
- Open up your options after school
- You get to work on real projects with an employer. Some of Scotland's biggest, best known organisations are involved, including McTaggart Construction, Media Monty, Morrison Construction and YMCA
- It's a chance to try a career out - so you can decide if it's right for you

Where could a Foundation Apprenticeship take you?

Straight to Work

An FA gives you skills employers want – like timekeeping, problem solving, communication and teamwork.

You'll have connections with employers, work experience and qualifications recognised by industry.

All this looks great on your CV.

A Modern Apprenticeship

In the same subject: You could complete your MA quicker because you'll have completed some elements of the MA during the FA.

In another subject: You'll already have the experience of learning on the job. That looks good to employers who are recruiting MAs.

A Graduate Level Apprenticeship

You'll have the experience of learning through work – so you're ready to do it at a higher level.

With a GLA, you can take your studies further, even up to Master's Degree level. All while you have a job.

College or University

Foundation Apprenticeships are recognised by many Scottish universities and colleges

COVID 19 - Due to the ongoing pandemic, the delivery of courses may be subject to change. Delivery of all courses are in line with government guidance.

CAR MECHANICS

Course Outline

This course will allow you to gain experience in the Motor Vehicle Repair Industry. You will gain experience working on real cars and rigs in a workshop environment. Continual assessment will take place throughout the course, to make sure your skills are being fully developed. This course will increase your chance of employment in vehicle repair industry.

Entry Level Recommended

Working towards 3 National 5 subjects including Maths

COMPUTER GAMES DEVELOPMENT

Course Outline

The National Progression Award (NPA) in Computer Games Development provides an opportunity for you to develop your knowledge and understanding of games design and games programming. This is an intensive course and requires you to be self-motivated, enthusiastic and prepared to study out with college. You will be working in labs that are equipped with the latest games software and hardware that will foster an atmosphere conducive to creative games development.

Entry Level Recommended

You must have:

- 3 passes at National 4, 1 of which should be Maths
- Due to the competitive nature of this sector, it helps if you demonstrate a real passion for gaming and you will be asked to provide a short personal statement on why you want to attend college

Course Content

National Progression Award in Computer Games Development SCQF Level 5:

- Computer Games Design
- Computer Games Media Assets
- Computer Games Development

Progression

You will have the opportunity to progress to studying the NC in Computer Games Development. If you have Higher Maths progression to the HNC/D in Computer Games Development is encouraged.

You might go on to do:

- A full time higher education course, such as a Higher National Certificate (HNC), Higher National Diploma (HND) or degree, in the computer games industry, computer games (Design), programmer, or related area of study. The level you might enter would depend on the level and relevance of your other qualifications
- A career in graphic design or as a games tester

INTRODUCTION TO TEACHING ENGLISH AS A FOREIGN LANGUAGE

Course Outline

Introduction to Teaching English as a Foreign Language will cover the basics of delivering English language lessons to non-English speaking learners. There will be a focus on online learning as well as face to face teaching. Good EFL teachers are in demand all over the world and this introductory course will help you decide whether it's something you'd like to do before committing to gaining an industry standard qualification. The course will also give participants an insight into the skills needed for teaching in the voluntary ESOL (English for Speakers of Other Languages) sector in Scotland.

Entry Level Recommended

Applicants should have an interest in teaching and at least a B pass in National 5 English/ESOL. There will be a short interview before beginning the course.

Course Content

Course content will include:

- ▶ **Language learning theory - what works and why; finding out needs and wants from your learners**
- ▶ **Working with learners online**
- ▶ **Tackling grammar and correcting mistakes**
- ▶ **Teaching listening, speaking, reading and writing skills**
- ▶ **Finding good teaching materials**
- ▶ **Managing a group of learners and keeping their interest**
- ▶ **Professional development opportunities and finding work in the EFL sector**

Progression

Guidance on the course will outline possible progression to the Cambridge CELTA (Certificate in English Language Teaching to Adults) or Trinity TESOL qualification.

Course Outline

This course is for learners whose first language is not English and who may be thinking about or preparing to join a College course. The Access to College course will provide language training in the skills necessary to make the most of your college course and feel confident in written and spoken tasks.

Entry Level Recommended

Applicants should have passed National 5 ESOL. There will be a short interview before starting the course to make sure it is suitable for the learner..

Course Content

Course content will include:

- ▶ **Reading and understanding the requirements of different types of assignments**
- ▶ **Listening and note-taking in lectures**
- ▶ **Effective contribution in group work**
- ▶ **Delivering presentations**
- ▶ **Reading for general meaning and reading for detail**
- ▶ **Planning and writing essays and reports**
- ▶ **Editing written work**

Progression

Applicants will progress on to their chosen College course.

SOCIAL SERVICES CHILDREN & YOUNG PEOPLE FOUNDATION APPRENTICESHIP

Course Outline

The Foundation Apprenticeship in Social Services Children and Young People is for pupils in S5 & S6. Pupils can study this framework over a 1 or 2 year period (S6 1 year only).

Pupils will complete a National Progression Award (NPA) at SCQF level 6. This includes knowledge units that support pupils to develop an understanding of how children develop and learn, play and child protection. Pupils will also complete the 4 mandatory Units of the SVQ 2 Social Services Children and Young People. The NPA will provide knowledge and an introduction to the skills that will help complete the SVQ units. The NPA has 24 SCQF credit points at SCQF level 6 and the 37 credit points at SCQF level 6. These two parts, along with associated work placement, form the Foundation Apprenticeship in Social Services Children and Young People.

Entry Level Recommended

National 5 English and working towards Higher

Please note: all candidates are required to be

vetted by Disclosure Scotland as part of the Protecting Vulnerable Groups Scheme (PVG Scheme).

Course Content

- ✔ **Safeguarding of children and young people**
- ✔ **Communication with children and young people**
- ✔ **Promote the safety and wellbeing of children and young people**
- ✔ **Support the health and safety of yourself and individuals**
- ✔ **Support the safeguarding of children**
- ✔ **Play for children and young people**
- ✔ **Development of children and young people**
- ✔ **Support effective communication**
- ✔ **Develop your own knowledge and practice**

Progression

- ✔ **Modern Apprenticeship**
- ✔ **NC Early Education & Childcare**
- ✔ **Higher Social Care Level 6**
- ✔ **HNC Childhood Practice or Social Services**

SKILLS FOR WORK CHILDCARE

Course Outline

You will study a National 5 level programme an introductory qualification that will allow you to further develop your knowledge, skills and attitudes needed to consider work in the early learning and childcare sector.

At National 5 pupils can begin to develop transferable skills including:

- skills to become effective job-seekers and employees
- positive attitude to learning
- flexible approaches to solving problems

The Qualification covers areas such as the Development and Wellbeing of Children and Young People, Play in Early Learning and Childcare and Working In Early Learning and Childcare

Entry Level Recommended

Must have achieved

National 4 qualifications, including English or Communications and be working towards National 5's

Useful to have achieved

Early Learning and Childcare National 4 course or its unit(s)

Course Content

Mandatory Units

- Development and Wellbeing of Children and Young People
- Play in Early Learning and Childcare
- Working in Early Learning and Childcare

Optional Units (one of the following):

- Contemporary families
- Children and Young People: Rights and Protection
- Care and Feeding of Children and Young People

SOCIAL SERVICES & HEALTHCARE FOUNDATION APPRENTICESHIP

Course Outline

The Shorter Duration Foundation Apprenticeship in Social Services and Healthcare is for pupils in S6.

Pupils complete a National Progression Award (NPA) at SCQF level 6 in Social Services and Healthcare. The NPA provides knowledge and an introduction to the skills that will help pupils to complete Mandatory Units of the SVQ 2 Social Services and Healthcare.

Together, the NPA and SVQ along with the associated work placement* form the Foundation Apprenticeship in Social Services and Healthcare.

**Work placement is not guaranteed and may be affected by the impact of the Covid-19 pandemic on the care sector. You will be notified of placement availability at the appropriate stage in your course.*

Entry Level Recommended

- Achieved five relevant National 5 qualifications at Grade C or above including English by end of S5 (Relevant subjects may include science, psychology, sociology or other care related topics)

- Achieved or working towards Higher English (A-C) by end of S6

Please note: all candidates are required to be vetted by Disclosure Scotland as part of the Protecting Vulnerable Groups Scheme (PVG Scheme).

Course Content

You will develop your own knowledge and practice and study a range of units including:

- Social Services in Scotland
- Communication in care relationships
- Human development and social influences
- Support the health and safety of yourself and individuals
- Safeguarding people
- Develop your own knowledge and practice

Progression

- Modern Apprenticeship
- Higher Health and Social Care Level 6

A successful interview with college staff and completion of a short written task may be required before a place is offered on the course.

Please note that due to the impact of COVID-19, this course will be delivered via a blended learning approach - which may include face-to-face learning on campus combined with remote learning off-campus and digital learning approaches.

HIGHER PSYCHOLOGY

Course Outline

The course provides students with the opportunity to enhance their knowledge and understanding of human psychology. This is achieved by studying a variety of topics that will help students understand the human mind and behaviour from a scientific perspective. There are currently two units on the Higher Psychology course; Social Behaviour and Individual Differences. In the Social Behaviour unit, students will study the mandatory topics of conformity, compliance, and obedience before moving on to study the optional topics of prejudice and aggression. For the Individual Differences unit, students will study the mandatory topics of sleep and dreams before moving on to study the optional topics of depression and memory. The course also consists of a Research Investigation which involves students selecting a suitable topic for research before designing and conducting that research in collaboration with other class members. Research Investigations are individually written before being submitted for external marking. The Investigations are worth 33% of the final grade. There is a final exam.

Entry Level Recommended

- ✓ S6 Pupils
- ✓ Achieved Higher English

Course Content

- ✓ Individual Behaviour
- ✓ Social Behaviour

In addition to these units, students will complete a Research Investigation and keep a logbook to record progress. The Research Investigation is worth 40 marks and contributes 33% towards the final grade. The remaining 66% of the final grade comes from the end of course external exam, which assesses your knowledge and understanding of the course content

Progression

- ✓ HNC in Social Sciences
- ✓ HNC Counselling
- ✓ University

Interview

You may be required to attend an interview for this course.

NPA CRIMINOLOGY

Course Outline

Criminology is the scientific study of crime, including its causes, responses by the criminal justice system, and methods of prevention. It is one of the fastest growing academic subjects in Scotland and the UK.

This National Progression Award (NPA) is designed to introduce learners - at SCQF Level 5 - to a selection of topics and areas of debates that inform contemporary ideas of crime and justice.

Entry Level Recommended

Pupils should have Nat 5 English and have a keen interest in the subject

Course Content

- Crime in the Community
- Criminology: Crime Scenes
- Modern Studies: Social Issues.
- Introductory unit to Forensic Science.

Progression

In combination with relevant school qualification learners have the opportunity to progress to an NPA at Level 6 and then PDAs at SCQF levels 7 and 8.

This award may also lead to employment in a related field of work. Learners will gain practical skills required by employers, as well as opening the door to opportunities existing in roles in business, finance, the commercial or public sector and the Police. Learners will gain skills such as communication, time management and the ability to work with others, which are fundamental to employment prospects.

HUMAN BODY STRUCTURE AND FUNCTION

Course Outline

Human Body Structure and Function SCQF Level 8 units offers you the opportunity to extend your knowledge and develop an understanding of selected body systems and how the human body co-ordinates these systems to maintain homeostasis. In studying these systems, you will also discover what happens when things go wrong, covering conditions as diverse as hyperthyroidism, gigantism and coronary heart disease.

Entry Level Recommended

S6 Only.

You must have;

- ▶ **Biology or Human Biology Higher or be working towards Advanced Higher**
- ▶ **You should have a genuine interest in human anatomy & physiology**

Course Content

Please note you will be studying an SQA double credit unit at SCQF level 8, this is not a Group Award:

This course covers topics including:

- ▶ **Structure & function of the skeletal system**
- ▶ **Function of the blood and heart**
- ▶ **Structure and function of respiratory system**
- ▶ **Structure and function of urinary system**
- ▶ **Structure and function of digestive system**
- ▶ **Hormonal and electrical signalling**
- ▶ **Practical laboratory experiments**

Progression

The unit would be an ideal stepping stone between secondary education and university programmes in medicine and dentistry, as well as to biology based degree routes. Data handling, problem solving and experimental techniques are all developed alongside expanding knowledge on anatomy and physiology.

SOCIAL MEDIA & ANIMATION

Course Outline

Social Media is everywhere and is used to interact and promote a wide range of hobbies, interests, sports, arts, business and general communication, on a daily basis, worldwide.

This course will help you to create animations and content to promote your area of interest through inclusion within a social media context.

You will look at social media platforms, social media tools, social media methodologies and social media etiquette, whilst creating your own social media platform. You will learn about the basics of animation through use of animation software and how this can be used to maximise the effect of promoting your social media platform. You will also learn how to use film, audio, photography and digital art software to create content for a website.

Entry Level Recommended

Working towards National 5s

Course Content

- ▶ Animation Fundamentals
- ▶ Art & Design Project
- ▶ Interactive Multimedia for Web Development
- ▶ Research

Progression

- ▶ NC Media
- ▶ NC Graphics

Interview

A successful interview with college staff will be required before a place is offered on the course.

HIGHER DANCE

Course Outline

This is the perfect course for you if you have an interest in working with others and enhancing your knowledge and understanding of choreography to create new and exciting dance work. You will participate in a variety of dance styles and learn, with others, how the fundamentals are used in the creative process of choreography (dance styles include Jazz, Contemporary and commercial). A basic understanding of Jazz, Contemporary or Ballet is beneficial but not essential for this course and you will be expected to display a commitment to engaging in new ways of working within dance. As you will be working with others, especially in choreographic pieces, full attendance on this course is expected. You will be given support throughout the course to plan, develop and evaluate your performance and will be kept fully informed of your progress. During this course you will have the opportunity to attend theatre trips and workshops such as the Scottish Ballet Highers' day.

Entry Level Recommended

A reference is required for this course

Course Content

- Choreography
- Technical Skills
- Dance Appreciation

Progression

- NC Dance
- HND Dance Artists.
- University

Interview

Entry is by audition and interview only, this will involve: A practical dance class, a group presentation about the course and content, a written short answer paper. The practical class requires that: Appropriate dance clothing should be worn. You should be prepared to dance bare foot. You may be introduced to dance styles which you have not tried before. If you are interested you will be notified through your school of an audition date. Following auditions, places are offered to those who demonstrate the greatest potential to benefit from the course, regardless of their previous experience or dance education background.

HIGHER PHOTOGRAPHY

Course Outline

Photography is the world's most popular hobby activity. So many business and professions now use photography to promote and develop their brands and products. From Instagram to posters in Braehead Shopping Mall photography is all around us.

Working towards a Higher in Photography will require you to take time in your week to plan, take and edit your pictures. Some projects are weather dependent meaning you will have to take pictures when possible; that might mean early on a Sunday morning!

Some students who complete this course go on to join our very successful courses in photography here in the College. Other students use the Higher to boost their art qualifications for entry to university, college or art school. As part of your school week this course gives you a chance to make a move to the next stage of your development, being a college student, working with new people from across Renfrewshire.

Students really love this course and explain it has helped their confidence and made

them feel more ready to move to college/Uni or work full time.

The course assumes you have little or no experience of photography when you start. We provide all equipment and materials you will need. This is a creative subject that also has a technical element. It will give you an opportunity to practice a wider range of skills – and it looks great on your UCAS or job application form!

Entry Level Recommended

There are no formal entry requirements

Course Content

- ▶ **Learn to use a DSLR camera and edit your images**
- ▶ **Contextual imagery Look at the world of photography, design and plan your photo shoots**
- ▶ **Compile a final project folio of your images**

Progression

- ▶ **NQ Photography**
- ▶ **HNC Photography**
- ▶ **University**
- ▶ **Art School**

Frequently Asked Questions

How do I get there?

If transport is required this is organised through your school and will take you back to the nearest point to your home at the end of the day.

For Foundation Apprenticeships travel expenses will be provided for work placements located more than 2 miles from your home.

How are these programmes different from the subjects I take at school?

The main difference is that you will spend time at college while working towards qualifications at SCQF Level 4, 5, 6 or 7.

If you are studying a Foundation Apprenticeship you will spend time in a work placement with an employer.

How will the courses be certified?

You will receive a certificate from the relevant awarding body (SQA, IMI etc.).

So what are the benefits?

The award itself will act as a springboard into the workplace, a modern apprenticeship, or to go onto college or university. You will develop valuable skills such as communication, working with others and problem solving, skills that are beneficial in the world of work.

Who do I contact if I have a problem while at College?

The Schools Team can be found in the Renfrew Building along from the Main Reception at the main entrance.

It sounds great - how do I apply?

Places are limited, you should speak to your pastoral/guidance teacher as soon as possible. You should also read the option details for your choice of course and discuss this with your parent or guardian. Your school will instruct you on the relevant online application process.

For Foundation Apprenticeships you must apply online through the West College Scotland website.
